

*Passion is defined as  
'a strong enthusiasm  
or emotion'.*

*In the landscape  
such emotions are  
made possible by the  
fall of light. As the  
landscape absorbs  
and reflects light in  
all of its diversities,  
through the change  
of season and time  
of day, the natural  
elements of our  
ever-changing  
landscape create  
endless opportunity  
for 'enthusiasm and  
emotion'.*

We are always happy to hear from you
